PROFILE

DevOps Engineer with 1.5+ years of hands-on experience in CI/CD automation, AWS infrastructure, and container deployments. Built and maintained pipelines with Jenkins, GitHub Actions, and AWS CodePipeline, provisioned infrastructure with Terraform, and ran containerized applications on Docker, Amazon ECS, and Amazon EKS. AWS Certified Solutions Architect - Associate, with a strong base in Linux and Bash scripting.

PROFESSIONAL EXPERIENCE

Junior DevOps Engineer
Feb 2026 - Oct 2026

Autotroph Infotech - Surat, India

- (bull) Built and maintained CI/CD pipelines in AWS CodePipeline to automate application deployments.
- (bull) Deployed and managed containerized applications with Docker on Amazon ECS and Amazon EKS.
- (bull) Monitored infrastructure and application performance using Prometheus, Grafana, and Amazon CloudWatch.
- (bull) Configured IAM users, roles, and policies, and supported Linux and Windows Server environments.

DevOps Engineer
May 2025 - Jan 2026

Rejoicehub LLP - Surat, India

- (bull) Improved CI/CD workflows in Jenkins and GitHub Actions, making deployments faster and more reliable.
- (bull) Supported 20+ application releases across AWS, DigitalOcean, and Contabo while optimizing cloud resource usage.
- (bull) Designed and provisioned secure, scalable AWS infrastructure with Terraform.
- (bull) Wrote Bash scripts to automate deployments, monitoring, and routine infrastructure tasks.

AWS Cloud Intern
Jul 2024 - Oct 2024

F13 Technologies - India

- (bull) Designed AWS architectures using EC2, S3, RDS, Lambda, and API Gateway.
- (bull) Assisted in migrating on-premises applications to AWS to improve performance and lower infrastructure costs.
- (bull) Prepared architecture and configuration documentation in line with AWS best practices.

TECHNICAL SKILLS

CI/CD:	Jenkins, GitHub Actions, AWS CodePipeline, Git
Containers & Orchestration:	Docker, Kubernetes, Amazon ECS, Amazon EKS
Infrastructure as Code:	Terraform, AWS CloudFormation
AWS Cloud:	EC2, S3, IAM, VPC, ALB, Lambda, RDS, CloudFront, CloudTrail, Route53, Secret Manager
Monitoring:	Prometheus, Grafana, Amazon CloudWatch
Operating Systems & Scripting:	Linux (Ubuntu/Debian/RHEL), Windows Server, Bash
Soft Skills:	Communication, Teamwork, Problem-Solving, Leadership

PROJECTS

Infrastructure Automation (AWS & Terraform)

(bull) Automated a complete AWS setup with Terraform, covering VPC, subnets, security groups, EC2, and an Application Load Balancer.

(bull) Improved consistency and reduced deployment errors through Infrastructure as Code.

CI/CD Automation Framework (AWS, Jenkins & Docker)

(bull) Built an automated CI/CD pipeline for a two-tier application using Jenkins and Docker on AWS.

(bull) Increased release frequency and made deployments reliable and repeatable.

CERTIFICATES

AWS Certified Solutions Architect - Associate Amazon Web Services (AWS)

(bull) Validated ability to design secure, scalable and cost-efficient cloud architectures using AWS best practices.

AWS Certified Cloud Practitioner Amazon Web Services (AWS)

(bull) Gained foundational knowledge of AWS services, cloud security, billing and basic architecture.

EDUCATION

Bachelor of Computer Application 2021 - 2024

Sutex Bank College of Computer Applications & Science - Surat, India

(bull) Awarded the MYSY Scholarship, a merit-based recognition given to promising students.
